

Happy 59 1/2 Birthday™

The ONLY WEBSITE dedicated to helping you celebrate turning age 59 1/2

www.59andahalf.com

THE PROBLEM

When I wished my dad “Happy 59 1/2 Birthday™!”, he had no idea what I was talking about.

And I had no idea that 60 million other boomers like him do not have their most financially rewarding birthday marked on their calendar.

This can mean thousands of dollars in penalties saved on your 401k and IRA!

THE OPPORTUNITY

At age 59 and 6 months, the 10% IRS early withdrawal penalty disappears. Gone. Vamoosh. A \$500,000 retirement account is suddenly a net \$50,000 ahead.

I don't know about you, but this sounds like it is worthy of celebration!

THE SOLUTION

59andahalf.com exists to help you with the entire process of turning 59 1/2. You may be looking for the right T-shirt, mug, or hat to brag to your friends that you are in the “Penalty-Free Zone”™. You might know little about the ramifications for hitting this landmark birthday, trapped in a retirement plan with terrible investment options. We're here to help with all “Happy 59 1/2 Birthday™” financial planning for retirement needs, giving you the right retirement plan solutions and financial advice, tailored to your situation and income goals.
